NOTES

1. The signal numbers herein assigned become effective 1 July 1957. The lineal position of all male line and staff corps officers is that held under the provisions of the Officer Personnel Act of 1947 (Title 10, USC, section 5504).

2. Service date as appearing in column 7 is the date of commencement of commissioned service for the purpose of determining eligibility for continuation on the active list or separation from the active list as defined in Title 10, USC, sections 6387 and 6388, quoted in pertinent part below:

"6387 (a) * * * the total commissioned service of a male officer on the active list in the line of the Navy * * * who has served continuously on the active list since his appointment in the grade of ensign * * *, either upon graduation from the Naval Academy or under sections 6904, 6906, or 6909 of this title, is computed from June 30 of the fiscal year in which he accepted that appointment.

"(b) Each other male commissioned officer on the active list in the line of the Navy * * * is considered to have the same total commissioned service, * * * as the officer described in subsection (a) with the maximum total commissioned service who—

(1) has not lost numbers or precedence and

(2) is, or at any time has been, junior to the other officer for the purposes of eligibility for promotion and selection for promotion during that other officer's latest period of continuous service on the active list.

"6388 (a) * * * the total commissioned service of each officer originally appointed in the grade of lieutenant (junior grade) or ensign in any staff corps of the Navy, who has since that appointment served continuously on the active list of the Navy, is computed from June 30 of the fiscal year in which he accepted that appointment. However, this subsection does not apply to officers appointed under the Act of April 18, 1946, Ch. 141 (60 Stat. 92).

"(b) Each other commissioned officer on the active list of the Navy in any staff corps is considered to have the same total commissioned service * * * as the officer in his corps described in subsection (a) having the maximum total commissioned service who—

(1) has not lost numbers or precedence; and

(2) is, or at any time has been, junior to the other officer for the purposes of eligibility for promotion and selection for promotion during that other officer's latest period of continuous service on the active list.

"(c) Notwithstanding subsection (b), each officer on the active list of the Navy in the Medical Service Corps appointed under the Act of April 18, 1946, Ch. 141 (60 Stat. 92), is considered to have * * * total commissioned service equivalent to that of his running mate.

"(d) * * * the years of service to be credited to each officer on the active list of the Navy in the Nurse Corps serving in the grade of lieutenant (junior grade) is based on—

(1) her active service in the Nurse Corps and the Nurse Corps Reserve; and

(2) her active service in the Nurse Corps and the Nurse Corps Reserve abolished by the Army-Navy Nurses Act of 1947 (61 Stat. 41).

"(c) Except as provided in subsection (d), this section does not apply to officers in the Nurse Corps or to women officers appointed under section 5590 of this title."

Service date is not applicable to temporary officers; warrant officers; Nurse Corps officers except those in the grade of lieutenant (junior grade); and women officers appointed pursuant to the act of June 12, 1948 (Title 10, USC, section 5590) and column 7 is blank for such officers.

3. A staff corps officer having a Naval Reserve officer assigned as his (her) running mate has a number shown in the running mates column which is the signal number of the Regular Navy line officer next senior to his (her) assigned running mate.

4. The asterisk symbol (*) printed immediately following the signal number indicates that the officer has been selected to the next higher grade. Attention is invited to the fact that some selectees will be promoted by the time the Register becomes effective or subsequent thereto, and that signal numbers in these cases will not therefore indicate the proper lineal position.

5. In the sections listing women officers, column 10 is headed "Precedence mates signal number." The signal number shown is that of the Regular Navy lineal list officer who is next senior to the woman officer concerned.

6. The date shown in the column headed "Active Duty Base Date" in the precedence list is the constructive date active duty was first performed as a medical or dental officer.

7. The date shown in the column headed "Pay Entry Base Date" in the Index to Names is the date which reflects all service for pay purposes. In the case of medical or dental officers the date shown in this column includes any portion of medical school and internship or dental school while not a member of the Armed Forces.

8. The numbers shown in the column headed "Locator Code" in the Index to Names are the last two digits of signal numbers of naval officers or of numbers in grade of Marine Corps officers.

9. Errors or omissions should be reported by letter to the Chief of Naval Personnel, Attention Pers-E11.

10. Distribution of this publication is made to ships, aircraft squadrons and staffs in accordance with allowances published in BuPers Instruction 5601.1 of 10 December 1953, and to shore activities in accordance with allowances based on established needs. Commanding officers of ships and stations needing copies in excess of established allowances should make letter request to the Chief of Naval Personnel, giving justification of need for the additional supply. Such letters should be signed by the commanding officer.

11. For the U. S. Marine Corps, distribution of this publication is made to units and organizations in accordance with Marine Corps Order 5601.1A. Organizations needing copies in excess of established allowances should make letter request to the Commandant of the Marine Corps (Code ABP), giving justification of need for the additional copies.
